04/06/2020 Information

As of 06 April 2020, IP Australia has made its trademark data available to the TMview search tool.

With IP Australia on board of TMview, the tool now contains data from 74 participating offices.

With the addition of more than 1,6 million trademarks from IP Australia, TMview provides information and access to more than 59,1 million trademarks in total.

Since the introduction of TMview on 13 April 2010, the tool has served more than 70 million searches from 169 different countries, with Spain, China and Germany among the most frequent users.

The integration of IP Australia is a concrete result of the International Cooperation programme managed by EUIPO in collaboration with its international partners.
