

03/31/2021 Events

The 13th edition of the European Exhibition of Innovation and Creativity EUROINVENT - 2021 will take place online from 20 to 22 May in Iași. The event is open to inventors, researchers, students and doctoral students from research universities. The EUROINVENT exhibition was and is intended to remain a distinct meeting place for inventors and inventions with businessmen and entrepreneurs interested in putting the results of human research, innovation and creativity into practice.

In the framework of the exhibition will be exhibited inventions, technologies, innovative research and projects developed in the last 5 years patented or under patent. All the elaborations presented will be judged and awarded.

The exhibition program also includes the ICIR EUROINVENT International Conference. During the conference, researchers, engineers and top scientists will present real research issues in the field of materials science and engineering. The 7th edition of ICIR EUROINVENT will take place in the period 20-21 May 2021.

For more information on the event, including the conditions of participation and conduct of the exhibition access the following address: <http://www.euroinvent.org> [1]. **The registration deadline is April 10, 2021.**

The National Salon of Scientific-Technical and Artistic Book will also take place within the framework of the exhibition. The jury will evaluate and award the most valuable books and magazines.

The event is organized by the Romanian Inventors Forum, in partnership with the Gh. Asachi Technical University, Al. I. Cuza University of Iași and "EUROPE DIRECT Iași". EUROINVENT is the only event in Romania held under the auspices of the International Federation of Inventors' Association IFIA and WIIPA Taiwan, being the largest event dedicated to inventions in Eastern Europe.

The State Agency on Intellectual Property (AGEPI) encourages inventors and researchers from the Republic of Moldova to participate in specialized international exhibitions and to use this tool to promote their own innovative projects with maximum efficiency.
