05/30/2022 Events

The 7th edition of the Korea International Youth Olympiad 4I (KIYO) will take place on August 11-13. Under epidemiological circumstances, the event will take place in hybrid format.

KIYO offers young inventors the opportunity to share their ideas, inventions, innovations and intellectual property objects and provides an excellent communication platform on various technical and scientific fields.

Young people have the opportunity to participate in the following two compartments:

The best of the best invention, where they will compete for the title of the best invention presented;

Creative Team Competition, where teams of 3-4 people will solve various creative tasks.

Young people interested in participating in the Olympiad must apply by July 10, 2022.

The event is organized by the World Women Inventors and Entrepreneurs Association (WWIEA), with the support of the World Intellectual Property Organization (WIPO), the Eurasian Patent Organization (EAPO), the International Federation of Inventors' Associations (IFIA), the Korean Intellectual Property Office and other partners.

AGEPI encourages young inventors from the Republic of Moldova to participate in international exhibitions and competitions and to use this tool to promote their own innovative projects with maximum efficiency.

For more information about the event, including conditions of participation and logistical arrangements, access the website: http://www.kiyo4i.com/download/ [1]
