04/10/2023 Events

Good news for applicants of the services provided by the State Agency on Intellectual Property (AGEPI). Starting from today, April 10, **all fees** can be paid online through the MPay e-payment governmental service, accessible from anywhere and at any time.

This service offers users the opportunity to make payments safely, without the need to travel to the AGEPI office.

The payment process through MPay is simple and fast, with users able to complete payments using their bank card and an internet connection.

This facility comes to the aid of applicants, giving them more freedom and flexibility in interacting with AGEPI.

The State Agency on Intellectual Property encourages applicants to use this option to pay their fees. This is a unique opportunity to take advantage of modern technology and save time and money by avoiding the costs and inconvenience of traveling to AGEPI headquarters.

To access this type of service, go to the following link: https://mpay.gov.md/Order/Search/AGP02 [1]

We remind you that, for 10 years, AGEPI has also made available to applicants a platform for online filing of applications for registration of intellectual property objects (https://e-servicii.agepi.gov.md/ [2]), which allows remote communication, efficient time management and reduction of personal expenses.
