12/01/2025 Events

Over 400 inventions, innovative projects and creative products, created by authors from the Republic of Moldova, Romania and other participating countries, will be available for discovery within the framework of the International **Specialized Exhibition "INFOINVENT"**, which will take place from **December 3 to 5, 2025, at the Moldexpo International Exhibition Center, Central Pavilion**.

After two consecutive editions held exclusively online, INFOINVENT returns in force to the physical format, bringing together inventors, researchers, students, entrepreneurs, creators and visitors interested in innovation, technology and creative industries in the same space. This year's edition promises an intense experience, with direct interactions, demonstrations and new opportunities for cooperation.

The event, now in its 19th edition, is organized by the State Agency on Intellectual Property (AGEPI), in partnership with the Ministry of Education and Research, the Ministry of Culture, the National Agency for Research and Development, the National Agency for Quality Assurance in Education and Research, in cooperation with the European Union Intellectual Property Office, with the support of the EU-funded Project "Strengthening Intellectual Property Rights in Moldova and Ukraine" (EU4IP).

The exhibition will bring together works from various fields: inventions, industrial design, emerging technologies, research and technology transfer, educational projects, creation of youth and creative industries. All exhibits will be evaluated by a commission of experts, and outstanding works will be awarded during the official awards ceremony.

The program of this year's edition includes a series of important events and activities. Thus, on **December 3, at 11:00, the official opening of the International Specialized Exhibition "INFOINVENT 2025" will take place**, followed by a guided tour for the guests of honor, who will also be able to admire the artistic-technological installation "Woven Hills", created by students from the Technical University of Moldova, under the coordination of designer Mihai Stamati.

Also on the same day, the **7th edition of the International Innovation Conference will take place, with the theme "Youth, Technology and Intellectual Property: Innovating Tomorrow's Future Today"**, organized by AGEPI in cooperation with the European Patent Office and the European Union Intellectual Property Office, with the support of the EU4IP Project, bringing together experts, innovators and young researchers in presentations, debates and interactive discussions. Interested parties can register online by filling out the form available at the **following link**.

On December 4, the Commission of Experts will continue its work, and visitors will be able to participate in the **National Seminar "Geographical Indications: The Value of Local Traditions and Development Prospects for the Republic of Moldova"**, organized in cooperation with the Union of Folk Craftsmen of Moldova and the Swiss PartnershIP Project.

On December 5, the exhibition program will end, and **the laureates of the ISE "INFOINVENT 2025" will be awarded during a festive ceremony**.

ISE "INFOINVENT" remains one of the most important national events dedicated to innovation, intellectual property and creativity, contributing to the development of a pro-innovation culture, the valorization of research results and the strengthening of relations between academia, the private sector and international partners.

The State Agency on Intellectual Property invites all interested parties to visit the Exhibition "INFOINVENT 2025", to interact with the authors of the projects and to discover ideas, solutions and products that reflect the innovative potential of the Republic of Moldova and the participating countries.
