Statistics

The "Statistics" section provides an overview of the dynamics of intellectual property protection in the Republic of Moldova. The data reflects the filing of applications and the granting of protection, structured by categories of intellectual property objects.

Information provided:

- **Historical series:** Annual indicators starting from 1993.
- **Current data:** Information updated monthly for the current year.

Statistical indicators regarding intellectual property objects, developed by AGEPI in accordance with the Annual Program of Statistical Works approved by the Government, are submitted to the National Bureau of Statistics for integration into national publications. Users can consult aggregated and correlated data at the national level by accessing the Statistical Yearbook of the Republic of Moldova [1] (Chapter 7 "Education", Sub-chapter 7.2 "Science and Intellectual Property").
