06/16/2026 Announces

Pe 7 iulie 2026, Academia Oficiului European de Brevete (OEB) organizează seminarul online **„**Digital innovations – BS12-2026”.

On 7 July 2026, the Academy of the European Patent Office (EPO) organizes the online seminar “Digital innovations – BS12-2026”.

The event will analyze how digital innovations, in particular those based on artificial intelligence (AI), are integrated into real operational environments, such as operating rooms, production units and assisted driving systems. A central topic of discussion will be the relationship of trust between people and technology, an essential factor for valorizing the competitive advantages offered by new digital solutions.

The event is part of the *HTB (High-Level Technology and Business) forums* series, intended for decision-makers in the field of intellectual property and the business environment. The seminar will provide participants with practical information on developing innovation protection strategies, assessing imitation risks, and their impact on investments and market positioning.

Registration for the seminar is open, and the deadline for registration is **July 6, 2026**. The working language will be English.

Additional details on the conditions of participation and how to register are available by accessing the link: https://www.epo.org/en/learning/events/bs12-2026 [1]
