09/08/2026 Events

Today, on the occasion of the 34th anniversary of the foundation of the State Agency on Intellectual Property (AGEPI), the institution’s administration, represented by the Deputy Director, Natalia Mogol, sent a congratulatory message to all those who, over the years, have contributed to the establishment of AGEPI and the affirmation of the intellectual property system in the Republic of Moldova.

In the message sent, the AGEPI management emphasized that the history of the institution is, above all, the history of the people who have worked and are working here, but also of the thousands of inventors, researchers, authors, artists, entrepreneurs and innovators whose ideas and creations have been protected and promoted through the intellectual property system.

In this context, the professionalism, responsibility and dedication of those who, through their activity, contributed to the achievement of institutional objectives and the development of the field of intellectual property in the Republic of Moldova were highlighted.

Words of gratitude were also addressed to institutional partners, the academic and research environment, the business community, creators and all those who have been with AGEPI during its 34 years of activity.

On the occasion of the anniversary, the AGEPI team was greeted and congratulated by the Minister of Justice of the Republic of Moldova, Vladislav Cojuhari, and the State Secretary of the Ministry of Justice, with responsibilities for coordinating the field of intellectual property, Dumitru Vleju.

They expressed their high appreciation for AGEPI employees, who, through professionalism and dedication, contribute to the development of a functional intellectual property system and to the achievement of the commitments assumed by the Republic of Moldova within the framework of the European integration process.

On the same occasion, in an atmosphere of cordiality, respect and gratitude, several AGEPI employees were awarded diplomas of thanks from the Ministry of Justice and AGEPI, as a sign of appreciation for the dedication, competence, integrity and fairness demonstrated in the exercise of their duties.

Through the sustained effort of the people who were and are part of its team, AGEPI has recorded, over the years, important successes, becoming today a modern and competitive intellectual property office, connected to European and international developments in the field.

The 34 years of activity represent not only an opportunity to take stock, but also a confirmation of the role that AGEPI has in supporting creativity, innovation and entrepreneurship, as well as in the valorization and protection of intellectual results for the benefit of society.

The anniversary is also a moment of gratitude for all those who have contributed to the institution’s history and an encouragement to continue, with the same responsibility and determination, building a high-performance intellectual property system, in line with the European aspirations of the Republic of Moldova.
