

01/15/2015 Events

In the period 25-28 November 2015 at the International Exhibition Center (IEC) "Moldexpo" will be held the work of the Fourteenth Edition of the International Specialized Exhibition "INFOINVENT".

ISE "INFOINVENT" is organized by the State Agency on Intellectual Property of the Republic of Moldova in cooperation with the Academy of Sciences of Moldova, Agency for Innovation and Technology Transfer and IEC "Moldexpo".

The exhibition aims primarily to support and promote creativity and intellectual property, attract investments in innovation and technology transfer activity, realization of joint projects on the implementation of inventions, technologies and new materials in the national economy, development of international scientific and technical cooperation. "INFOINVENT" is an ideal platform for business meetings between inventors, researchers and representatives of the real sector of the economy, including from the small and medium enterprise sector.

Works presented at the stands of the ISE "INFOINVENT" may be exhibited to 5 sections, namely: inventions, plant varieties and industrial design, innovative products/services; innovation and technology transfer projects; creation of youth; cultural and creative industries, which would allow the participation of both inventors and researchers and enterprises, including from the small and medium business sector, craftsmen, students and other creative people.

Each edition of the ISE "INFOINVENT" is an increase in the number of participants and works presented at the exhibition stands, both from the Republic of Moldova and abroad.

Traditionally, in the framework of the exhibition is run an additional program of technical and scientific events, including seminars, round tables, workshops. One of the most important events will be the International Innovation Conference, focused on the role of innovations and intellectual property in successful development of business.

Detailed information about ISE "INFOINVENT-2015", including the Regulation on the Organization and Conduct of the Exhibition and the forms, can be found on web pages <http://www.infoinvent.md/> [1].
