28.04.2011 События

The National Institute of Inventions (NII) and the Romanian Inventors Society, in cooperation with the Technical University “Gh Asachi” of Iasi, under the aegis of the National Authority for Scientific Research, unfolds between 8 to 10 June 2011 in Iasi, in the Auditorium of the Technical University “Gh. Asachi”, and at the National Institute of Inventions, the 15th International Exhibition of Research, Innovation and Technology Transfer, with the sections “Iasi - City of Creativity” and “Henry Coanda - Homage to 125th Birth Anniversary”. The event will also include the International Conference “INVENTICA-2011” and the Workshop “Year 2011 - NII on its 20th Anniversary of Innovative Culture and Creativity”.

The events listed are intended to be dedicated to promotion of scientific research in inventiveness, innovative products and cooperation in research and innovation, the launch of partnerships based on mutual competencies and service tenders.

The International Conference of Inventions of high scientific reputation, integrated in a unique program with the Exhibition and Workshop, will host leading figures in the field of research and development: scientists, researchers, university professors, members and representatives of inventors’ associations and societies, industrial enterprises, commercial and service companies from France, Belgium, Austria, Moldova, Croatia, Serbia, Poland, Czech Republic, Bulgaria, Russia, Hungary, Ukraine. Guests will enjoy a unique opportunity to establish and deepen the cooperation and development of inventions by providing background and promotion opportunities.

Under the new regulation of the International Exhibition “INVENTICA-2011”, an initial judging process will take place in May on-line. Interested persons need to submit the detailed specification of invention or research project, with graphics, photos, etc., in English and Romanian, to April 30, 2011 (www.inventica.org.ro [1]).
